When Paychex offices are closed, our 24/7 service center is open for emergencies.

Note: These dates are subject to change

Payroll Frequencies for 2027

The number of pay periods your company will have in 2027 depends entirely on your pay frequency. Each schedule has its own advantages and considerations for both employers and employees.

Pay Frequency	Typical Number of Pay Periods in 2027*	Typical Pay Dates	Best For
Weekly	52 or 53	Every week (often Friday)	Hourly workers
Biweekly	26 or 27	Every other week (often Friday)	Most businesses
Semimonthly	24	Fixed dates (e.g., 15th and last of month)	Salaried staff
Monthly	12	Same day each month (often last day)	Executive level

*Because both January 1 and December 31, 2027 fall on a Friday, organizations that pay employees weekly may have 53 paydays instead of the typical 52, and those that pay biweekly may have 27 instead of 26.

Year-End, handled

There's a lot riding on getting year-end right, and not much time to do it. Let a Paychex expert help you finish accurately and fill you in on our latest offers.
